

## Care Coordination and Transition Management (CCTM) Courses

The CCTM Courses take education in CCTM one step further! Both versions are derived from the evidence-based CCTM Core Curriculum text content, and are designed to help you apply the content you read to your practice. Nurses who purchase either course receive a PDF version of the corresponding Core chapter for advance learning before completing the module. To introduce nurses to the value of the course, the first module is FREE to any nurse, including contact hours. (2.4 for CCTM1. 1.79 for CCTM2).

Pricing for both courses is the same to individuals: Member: \$195 | Non-member: \$245 | Individual modules: \$40/\$50

**CCTM1**, the original course, provides audio and PowerPoint presentations by CCTM content experts. If your learning style prefers to hear directly from the content expert, this version is for you. This course is offered in the AACN Online Library, and may be purchased by individuals. Site licenses are available for group purchases. Earn 26.4 contact hours. Visit [www.aacn.org/cctm](http://www.aacn.org/cctm) for more information.

**Special Offer!** Nurses who purchase the CCTM Course may purchase the Care Coordination and Transition Management Core Curriculum text at a 50% discount. Visit [aacn.org/cctm](http://aacn.org/cctm) for more information or purchase the course at [www.aacn.org/library](http://www.aacn.org/library)

Questions? Email [steph@aacn.org](mailto:steph@aacn.org)

**CCTM2** If you enjoy participating in interactive activities as you view and hear content being presented, you will prefer the CCTM2 learning platform. This is an interactive online course with knowledge checks built in at intervals in addition to text and audio presentation. The course may be purchased by individuals or by institutions. If your facility uses HealthStream as its learning management system, check if this course is available to you or ask your manager/CNO to add it to the facility's package. Earn 23.25 contact hours.

Purchase the course or learn about institutional pricing at [aacn.org/cctm2](http://aacn.org/cctm2). This course is made available through a grant from the Ben Hudnall Memorial Trust and Kaiser Permanente.

## Scope and Standards of Practice for Registered Nurses in Care Coordination and Transition Management, 2015

This new resource provides the first scope and standards of practice for registered nurses in a relatively new role, care coordination and/or transition management (CCTM). While these roles have been evolving over the past 25 years, there has never been formal identification, specification, and/or publication of the scope and standards of practice. This publication sets the standard for excellence in the coordination of care and is written as a resource for both acute and ambulatory care nurses. The Standards address both the clinical dimension and the management dimension of CCTM, and may be used as a tool to advance professional care coordination and/or transition management nursing practice, patient and population health, and the performance outcomes of health care institutions.

Product #P023 Member Price: \$29 | Non-Member Price: \$44
